

# Creating a Wildlife Friendly Garden with Spencer Shaw

## Saturday 4th March

At the forefront of Biodiversity protection from issues such as clearing, fragmentation and climate change is the importance of connectivity and diversity of habitat in our landscape. Your backyard can be a biodiversity hotspot!

Aspects covered in this workshop will include:

- Planting for wildlife
- Managing threats to wildlife
- Feeding wildlife ?
- Constructing habitat

**Forest Heart Nursery—20 Coral St, Maleny**
